## ENROLLED IN HYPER ISLAND FRONTEND DEVELOPER PROGRAM

2022

Have learned the web standards as well as web browser conditions.  
• Able to code web pages using HTML, CSS, Javascript with the fundamental understanding of mobile first design concepts, cross browser development, API implementation and SEO.  
• Able to design interfaces that incorporate accessibility & user-friendliness.

Projects based learning with teams using agile methodology.  
• With the basic understanding of software development cycle, able to plan/design, prototype using figma, code, test/debug and deploy/maintain along with a working proficiency of the git version control.  
• Able to plan out tasks needed to deliver products.  
• Have created a game within 3 weeks using phaser framework along with Firebase as a database.

Learning and implementing the design thinking process: empathise, define, ideate, prototype and test, with real clients.

## CUSTOMER SERVICE / SERVICE

Years of customer service experience grant me the ability to easily communicate with clients and teammates to establish the necessary requirements to complete projects in a professional and timely manner.

## MOVED TO SWEDEN

## ADMINISTRATIVE ASSISTANT

Quickly learned the system and 100% accuracy in operation. Strengthened multitasking and time managing skills by handling different tasks efficiently.
